WARRANTY TERMS

2. This warranty card is a very important document & customers are advised to have this completely filled & kept in a safe place. In the event of a manufacturing defect in the battery during the warranty period the customer must return the battery to the company with the original invoice & this warranty card. The company processing a claim will not entertain incomplete warranty details.
3. This warranty card is a **non-claim** & is to be completed & filled & sent with the dealer from whom the battery is purchased. This is a **turn** will be sent to the company for registration of warranty.
- 3. The warranty of your battery shall become null & void if:**
- The battery is transferred to a third party.
 - The battery is found to be misconnected.
 - The battery is not connected properly & is found to wrong use.
 - The contents of the Warranty Card & Invoice are kept to be tampered with.
 - The bar code sticker of the Warranty Card defaced or tampered with.

The bar code sticker number of the warranty card and the bar code sticker number of the battery must match.

The battery is insured if not damaged due to improper handling, unauthorized personnel, fire, excess heat, theft, accident, with abuse or overcharging.

The battery is not insured due to overcharging.

The battery is found with highly corrosive electrolyte (ie. 1.800 for SR120050 replace).

The battery topping up with battery grade distilled water is not done periodically, it is not recommended to use Tap water, bore well water, RO water and rain water for necessary topping up of battery.

Any electrolyte or material other than battery grade distilled water is used in the battery.

4. Our batteries are warranted solely against poor workmanship and use of faulty material. Consequent liabilities will not be entertained.
5. It is the responsibility of the customer to bring suspected battery to the nearest authorised service centre in case of any trouble.

- In case your battery develops a fault, you may contact any of our Authorised Service Providers. The list of our Authorised Service Providers shall be provided by the dealer from whom you have purchased the battery. It is advised that due care should be taken to ensure that the battery has not been opened or repaired by an unauthorised service personnel, as this would render your claim. The defective battery should be returned on "freight paid", in an unopened condition and filled with electrolyte. Delivery of the

- 7) repaired / replaced battery will be given to the customer at the same price.
- 8) Buyer might to determine whether the battery needs to be replaced or not. In case of replacement, the replacement cost will be paid by the customer.
- 9) In case the defective battery is replaced or repaired free of charge, the warranty of such a battery will commence from the date of replacement. In case the battery is not replaced or repaired, the warranty can't start. Also, the defective battery then becomes the property of the company. It is not able to accept value of the battery. If it is none of the above warranty, the battery should be returned to the customer.
- 10) Breakdowns of the condenser or terminals of the battery are not covered by the warranty.
- 11) Should the battery require to be charged during the warranty period, the same will be sold as non-chargable battery. This service is not covered under the purchased warranty.
- 12) In case a battery model is produced out, the company is not responsible for the battery. The battery is not covered by the warranty. The application as replacement of warranty.
- 13) The warranty on the battery (being repaired free of cost) will commence from the date of sale of the original battery or customer's replacement. Battery is not covered from the date of replacement.
- 14) All disputes are subject to jurisdiction of court in Delhi.

DISCUSSION

Your battery is made of Lead & Sulphuric Acid, both of which are dangerous materials to handle.

PLEASE DO NOT

- Allow children to come close to the battery.
 - Handle the battery yourself always out of the services of our authorized service personnel.
 - Empty the battery container of its electrolyte as it could pollute the air, ground & water with poisonous material.
- PLEASE REMEMBER THAT LEAD-ACID BATTERIES CONTAIN VERY TOXIC & HAZARDOUS SUBSTANCES THAT COULD CAUSE BURNS, IRRITATION, DAMAGE TO HEALTH & ENVIRONMENT. LEAD-ACID BATTERIES PROPERLY USED COULD CAUSE POLLUTION AND AFFECT THE NERVOUS SYSTEM THEREBY RESULTING IN BURNING & IRRITATION TO BLIND OR OTHER ORGAN.**
